OpenSTEP OpenSTEP is a free Java-based GUI platform for creating applications. AutoCAD makes a Java interface available, which is also used as a "wrapper" for the native interface. As an OpenSTEP application, the program can be customised, and controlled with a Java scripting language, AWT or Swing. This is the most popular software application for importing AutoCAD DWG or DXF files, and allows control and interactivity with them. AutoCAD is also able to export CAD drawings to the OpenSTEP specification.
