ImageEn V8.1.1 With IEVision V4.5.0.2

ImageEn is an extensive component suite for image editing, display and analysis written in pure VCL .

ImageEn v8.1.1 with IEVision v4.5.0.2 is a tool for digitizing and converting analog image-forming devices into digital formats. It can also be used to analyze image processing and correction and perform other operations. It also includes a virtual image processing system that simulates the difference in image intensity that occurs when an object with a different brightness is imaged under different exposure conditions. This can be used for analysis of the presence of defects or the setting of a uniform brightness. ImageEn v8.1.1 with IEVision v4.5.0.2. 4. To take advantage of IEVision's functionality you must copy the files that come with IEVision and paste them into the directory where ImageEn v8.1.1 with IEVision v4.5.0.2 is installed.. another new version IEVision 4.5.0.2 requires Delphi Rio "XE5.1.4" installation (C:\Program Files (x86)\Embarcadero\RAD Studio\5.0\bin (32 bit build)\ievision) ImageEn v8.1.1 with IEVision v4.5.0.2. V4.5.0.2. While installing or running ImageEn v8.1.1 with IEVision v4.5.0.2 there are two options for you to choose from: Option 1: Keep the current installed path. Option 2: Select a new location for the user data. When you choose to keep the current installed path then the default location of the user data files (some keys) is C:\ProgramData\ImageEn\File.txt. If you later installed the software in a different directory that is where it will install its user data file (some keys). If you change the default folder (to a folder that you own, or, that has adequate permissions) then you can make changes to those files. This change you make will not change the installed location of the ImageEn v8.1.1 with IEVision v4.5.0.2 files or changes, just changes the files that are stored in the default location. More about not changing the default location is here: Change the default 3e33713323
