ABOVE: If you buy one app you're not going to do work in all areas. But Adobe's beefed-up and refreshed version, Photoshop Elements at \$79, lets you access all of the same features and uses a similar interface, and if it's your first image-editing app, Elements is still an easy choice. Or, if you want more power to produce seamless photos of your stock library, you can get Photoshop vs \$399. Adobe Photoshop is officially a two for one event with the addition of its new iPad app. The native iPad app, the company's first for the tablet, comes with deep integration of the tablet's multi-touch functions, as well as the ability to view, edit, and save your work. It's also immediately available on Apple's App Store. There are still a lot of things that I haven't seen an updated review of, or for that matter, what many newer reviewers actually look at. Sometimes reviewers don't need to look at all, like when I write about an updated printer. I didn't get one for a while, until a new version came out. At that time, it became relevant. Ge continues to make some really good inkjet printers , and the newer series that's out will satisfy even the most demanding customer. In this case, readers who wrote us about their long-term frustrations with Canon inkjet printers had the new models to try out. Using the full suite of Adobe Photoshop Elements 2020, I was able to edit and apply various filters and effects, as well as create and save projects, thousands of pixels at a time. Most importantly, however, the program solved all the problems that have always had me afraid of the program. Rather than crashing and taunting me with an error message, the program always opened in full capacity without a hitch. Spending the last few years on an older system, I can't fathom how Photoshop Elements 2020 handled my system and the 76 Kbit/s upload speed.

One of my absolute favorite games lately is My World of Conan - where you are a back-up for Conan the Barbarian who has to fix the dark and wacky world he lives in. When I tap on the figure, Conan says "Do you know me?" and when I reply "yes", he counters my question with "So, do you know me?" - it's a delightful mix of conversation and game mechanics.
